PROFESSIONAL EXPERIENCE

10/07/2020

Individual company

Business or sector:

Environmental monitoring and consultancy: the professional activity includes the preparation of technical documentation and the implementation of environmental and wildlife surveys. The monitoring activity is focused in particular on mammals and insects.

Environmental hiking guide: Associated with the Italian Free Association of Environmental Hiking Guides (LAGAP) with card number 347. Experience in hiking on mountain and low-altitude areas.

07/01/2017 al 01/03/2018

Voluntary research collaborator at the University of Udine.

Monitoring of the golden jackal in Friuli-Venezia-Giulia by means of acoustic stimulation and the use of camera traps. Drafting of scientific articles presented at various national conferences. Support for brown bear research including the capture for scientific purposes of three individuals equipped with a GPS collar. Experience in surveying biometric measurements and capture procedures. Support for monitoring activities within the Life Wolf Alps project on the wolf.

01/03/2018 al 01/03/2020

Research fellow at the University of Udine

Winner of the research fellowship within the European Interreg Ita-Slo project, Nat2care with the title: "Innovative monitoring for the management of birds of conservation interest and involvement of citizens and stakeholders in the conservation of N2K transboundary areas."

Main Activity:

Research and monitoring: improvement of monitoring protocols for the corncrake, golden jackal and wolf. exchange of best practices between partners and for integrated management at cross-border Italy-Slovenia level. Technical manager in the capture and telemetry of three individuals of golden jackals for the preparation of VHF and GPS radiotags for the study of the ecology and behavior of this species. Monitoring of the jackal by acoustic stimulation and camera trapping. Mapping and evaluation of ecosystem services in sample areas.

Relevant scientific activities:

- 2-06-2019 Support for the capture of 8 griffon vultures at the Comino Lake Nature Reserve, provision of GPS detection devices and biometric survey. Management and setting of remote sensing devices via web platform and data analysis in the post-release phases.
- 21-03-2019 Biometric surveys and assistance for the release of the first individual of the golden jackal with radio collar in Italy. The animal was released following treatment in the Campoformido and Pagnacco recovery center due to investment trauma.
- 23-04-2019 a 20-06-2019 Support for the capture and radio telemetry of 6 individuals of corncrake (Crex crex)

Computer skills:

Development and implementation of a smartphone application based on the Cyber tracker platform to assist faunistic and environmental monitoring operations.

Activation of a WEB-GIS platform for the online exchange of geospatial data on time. Maps have been created that can be consulted by each of the project partners homogenized according to the European standard of the INSPIRE directive.

Communication: Organization and management of the project's social media, the realization of popular audio-visual content and management of the platform for the Citizen Science iNaturalist. Graphic and textual design of an information brochure in three languages to illustrate the aims of the

project (conservation of biodiversity and target species, ecosystem services and Citizen science). Organization and participation in environmental dissemination days for primary and secondary schools and workshops for the ISIS Fermo Solari high school. Publication of a popular article on the bulletin of the Julian Prealps park (31/11/2018).

Docente responsabile: Stefano Filacorda

01/06/2016 al 10/09/2017

Entomological monitoring on a voluntary basis

From 2016 to 2017 monitoring of Zeuneriana marmorata, (endemic grasshopper in the wetlands of Friuli Venezia Giulia).

Academic studies

**MASTER'S DEGREE
2013 - 2016**

Università degli Studi di UDINE
Dipartimento di Scienze Agroalimentari, Ambientali e Animali
SCIENZE E TECNOLOGIE PER L'AMBIENTE E IL TERRITORIO
Specific field of the degree course: GESTIONE DEL TERRITORIO
LM-75 - 2nd level degree in Environmental engineering
Dissertation/thesis title: STIMOLAZIONE ACUSTICA, FOTOTRAPPOLAGGIO E STUDIO DELLE PREDAZIONI PER PREDIRE LA DISTRIBUZIONE, ECOLOGIA E SOCIALITA' DELLO SCIACALLO DORATO (CANIS AUREUS) NEL CARSO GORIZIANO | Dissertation/thesis subject: GESTIONE DELLA FAUNA | Thesis supervisor: FILACORDA STEFANO | Dissertation/thesis keywords: SCIACALLO DORATO STIMOLAZIONE ACUSTIC DISTRIBUZIONE PREDAZIONE ECOLOGIA
Age at graduation: 25 | Official duration: 2 years
Final degree mark: 110/110
Graduation date: 14/04/2016

**BACHELOR'S DEGREE
2009 - 2013**

Università degli Studi di UDINE
Facoltà di Agraria
SCIENZE PER L'AMBIENTE E LA NATURA
L-32 - 1st level degree in Environmental sciences
Dissertation/thesis title: COMPETIZIONE FRA APE DOMESTICA E APOIDEI SELVATICI NELLA "RISERVA NATURALE REGIONALE FOCE DELL'ISONZO" | Dissertation/thesis subject: ECOLOGIA GENERALE | Thesis supervisor: ZANDIGIACOMO PIETRO | Dissertation/thesis keywords: BOMBI FLORA APISTICA AREA PROTETTA APOIDEI SELVATICI APE DOMESTICA
Age at graduation: 22 | Official duration: 3 years
Final degree mark: 94/110
Graduation date: 18/04/2013

**Technical Certificate
2009**

Agricultural Vocational School
GIOVANNI BRIGNOLI , GRADISCA D'ISONZO (GO)
School-leaving examination mark: 88/100
Kind of secondary school diploma: Italian secondary school diploma
Kind of secondary school attended: Public school

PERSONAL SKILLS

Native language	Italian				
Other languages	UNDERSTANDING		PARLATO		WRITTEN PRODUCTION
	Listening	reading	Interaction	Oral production	
Inglese	B2	B2	B2	B2	B2

Digital competence	
	<ul style="list-style-type: none"> ▪ Good command of digital image and video processing programs (Adobe suite) ▪ Good knowledge of databases and geographic data management tools ▪ Excellent knowledge of GIS systems (Qgis and ArcGis)

	<ul style="list-style-type: none"> ▪ Good command of scientific software for modeling environmental data including Distance Sampling, Circuitscape, and MaxEnt. ▪ Fair mastery of IBM software for SPSS statistical analysis.
